GEORGIA - FIDDLE

1 x vocal mic required

1 x XLR for fiddle with
phantom power

AAREN - GUITAR

1 x vocal mic required

2 x XLR for acoustic
guitar

AUDIENCE

NOTES

MONITORS: Ideally one per band member but can work with less. Generally ask for an equal mix of all vocals and instruments in each as a start.

GUITAR: We send two signals from the acoustic guitar; one for the the acoustic guitar and another for a bass octave pedal to be mixed like a bass guitar ideally with some compression, blended with the acoustic signal. Both will be on at all times.

FIDDLE: Requires phantom power.

MANDOLIN: Runs through a preamp and EQ pedal both with separate boosts for lead playing. We soundcheck both of these so shouldn't need ongoing volume adjustment from the desk during the show.

We can all mute our instruments.

We require power stage left and stage right.
